Scope and Sequence - Connected Mathematics Project

SC-Common Core Algebra II Scope and Sequence Unit Lesson Lesson Objectives Transformations of Quadratic Functions Describe the effects of changes in a, h, and k to the graph of a function in the form $y = a(x - h)^2 + k$. Use completing the square to write quadratic functions in the form $y = a(x - h)^2 + k$.

SC-Common Core Algebra II Scope and Sequence

The Scope and Sequence document provides a brief outline of the standards and a recommended teaching order for a particular course/grade-level. A course/grade-level Scope and Sequence document outlines for each grading cycle three crucial learning criteria: the recommended number of lessons and amount of time for instruction. Each Scope and Sequence document is designed for a specific school year and reflects the number of available instructional days for that year and grading period.
