He became a very important force in American bonsai art in the 1950s-60s. He was a driving force in the spread of bonsai appreciation and the practice of bonsai art in the West and elsewhere. A very few of his many accomplishments are the following: He published two books, entitled Bonsai Techniques I and Bonsai Techniques II, texts that are revered as being the bibles of western bonsai to many artists.

Bonsai does not require genetically dwarfed trees, but rather depends on growing small trees from regular stock and seeds. Bonsai uses cultivation techniques like pruning, root reduction, potting, defoliation, and grafting to produce small trees that mimic the shape and style of mature, full-size trees.
