Borland Delphi 4.x. Borland Delphi is a Windows based Object Pascal development environment. It was based on the earlier Borland Pascal product and adds a GUI IDE geared towards Rapid Application Development. Some of its functionality was merged in to Borland C++ Builder but both continued to be sold alongside each other. Current supported versions are sold by Embarcadero Technologies.

WinWorld: Borland Delphi 4.x

Borland has released some of its older software for free but nothing as 'recent' as CBuilder 4. Mostly the stuff from the late 80's and the early 90's - Turbo Pascal and some of the C stuff. They did release the compiler for free but I do not believe that it includes the VCL which you probably used for the project.

In 1993, Borland launched Borland C++ 4.0 which included OWL 2.0. In this version of OWL, the proprietary DDVT extension was replaced by response tables, a macro -based solution compatible with standard C++ and similar to MFC in use. A conversion tool (OWLCVT) was included to migrate code from OWL 1.0 to OWL 2.0.
