Not every computer has a connectivity center, but most new ones do. Like I said in step 11, "The connectivity center is the area on the front of the computer where there is many input sections, like usb, firewire, microphone, headphones, video, etc.". But this time, I will remove the whole component, not just unplug the cables\wires!

How to Disassemble a Computer : 16 Steps (with Pictures ...

To write user manuals, start by breaking up the bulk of the content into chapters or sections that make sense for the product's use, then kick off the manual with a table of contents and glossary. Next, create safety warnings and write a description of the device.

How to Create a User Manual (with Pictures) - wikiHow

Still, you can always use one of the available templates and simply omit the step of instruction manual template designing. 10. Export & share . The last step is exporting and sharing your user instruction manual. If it has been created with a word processor, as a rule, you can export it to some text formats or PDF.

How to Create a User Instruction Manual | Stepshot

If you are setting up a new desktop computer, there are a few steps you will need to go through before you can start using it. After finding a place near your desk to put the tower, you will need to connect your monitor, keyboard, and mouse, as well as plug the tower into a power source.

How to Use a Computer (with Pictures) - wikiHow

When cleaning the computer, follow these steps: 1.Turn off the computer. 2.Disconnect the AC adapter. 3.Use a soft, moist cloth. Do not use liquid or aerosol cleaners. If your computer is dropped or visibly damaged, or does not work normally, please contact your nearest authorized Acer service center.

NITRO 5 USER'S MANUAL

See if the computer responds by pressing the Caps Lock key on the keyboard and watching the Caps Lock LED (light) to see if it turns on and off. If the computer can turn on and off Caps Lock, continue to the next step. If nothing happens, the computer is deadlocked, and you must reboot the computer. End Task the not responding program
