1. Open Creo Parametric 2.0 2. Hit Select Working Directory on the top bar and select whatever folder you want your new part to go into. 3. Next hit the New Button, make sure the type is set to part. Change the name to whatever you want to name your part and hit OK.

Creo 2.0, Basic Modeling Tutorial

Creo Parametric provides many powerful tools for model creation. In doing feature-based parametric modeling, it is a good practice to establish three reference planes to locate the part in space. The reference planes can be used as location references in feature constructions. 1. Move the cursor to the Datum toolbar on the Ribbon toolbar and
