Interpersonal communication in older adulthood ...

Because poor quality interpersonal communication can be a major source of stress and create significant problems for providers, older adults, and aging services-related organizations, Chapter 7 focuses on a special C — calmness.

Interpersonal Communication - an overview | ScienceDirect ...

Older adults are becoming increasingly dissatisfied with service quality citing deficits in provider communication and relationship skills. The author argues this dissatisfaction is largely related to three widespread issues: ageism, use of professional jargon, and age-related changes in the older adult.

Person-Centered Communication with Older Adults - 1st Edition

Abstract Adults age 65 and older are the fastest growing population segment in the United States and globally. Growing numbers of older adults are voicing dissatisfaction with providers, citing poor-quality relationships and unsatisfactory interpersonal communication. Unsatisfactory communication impacts the quality of services and outcomes.
