The Keppe Motor & The New Physics | STOP The Destruction ...

Keppe Motors use up to ninety percent less energy compared to the common single-phase induction motors found in many of today's modern appliances. They are even up to thirty percent more efficient than the latest electronically controlled DC brushless motors. And Keppe Motors can be manufactured at highly competitive costs.

Keppe Motor on Vimeo

The Keppe Motor represents the most innovative and efficient motor technology in the world today. Working through the principle of resonance, this technology guarantees maximum efficiency for motors of any power over their entire working range. We can differentiate the Keppe Motor from both conventional AC and DC motors by its unique RC (resonant current) operating waveform.
