Chaseside fitted Leyland 600 and 680 power plus in their s/l 2000-2500 and s/l 3000 loading shovels when I worked there as an apprentice fitter in the 60s,really powerful and reliable engines.They were also used in the Leyland octopus etc and GUYs and FODENS to name a few,i still have a parts manual for the 680 somewhere. regards, jack preston.

### Engines - Leyland 0.680 - The TruckNet UK Drivers RoundTable

A prototype engine of 700 cubic inches (12-litre) with a fixed head including an over head camshaft, cross flow manifolding and turbo started to be tested. With the engine having no separate cylinder head, maximum cooling to the piston crowns and combustion area was allowed.

### Essays : The 500-Series - Leyland loses its head! - AROnline

Leyland Motors has a long history dating from 1896, when the Sumner and Spurrier families founded the Lancashire Steam Motor Company in the town of Leyland in North West England. Their first products included steam powered lawn mowers. The company's first vehicle was a 1.5-ton-capacity steam powered van. This was followed by a number of undertype steam wagons using a vertical fire-tube boiler.

### Leyland Motors - Wikipedia

Well if are talking about foreign engines offered on the North American market, I suppose one could mention the Leyland 600 and 680 engines, with anything between 125-200 hp which were fitted into the Canadian Leylands.
