Abstract. Misunderstanding Financial Crises enriches the debate concerning the events of 2007–2008. The author challenges much of the conventional wisdom regarding financial crises and laments the tendency of mathematics to crowd history out of the study of economics. Eugene Fama, whom many regard as the father of modern finance, was asked in a May 2012 interview what he thought was the cause of the 2007–08 financial crisis.
