Urban Development: The Logic of Making Plans Urban Land ...

The title is a bit misleading: while the book is about the logic of making plans, it is not about urban development, per se. Urban development is a broader term and encompasses much more than just plan-making, such as real estate issues, economic feasibility of developments, environmental impact, and so on.

1 Plans for Urban Development: Why and How? Making most development decisions one by one—with the focus on process, without benefit of something called a plan—is to forget why the field exists. —Allan B. Jacobs (2000), "Notes on Planning Practice and Education" To the northwest of Champaign, Illinois, Interstate 74 leads to the small town of Mahomet ten miles away.

HOPKINS ch. 1-2 Urban Development The Logic of Making ...

Urban design is the process of designing and shaping the physical features of cities, towns, and villages and planning for the provision of municipal services to residents and visitors. Although it deals with issues of a larger scale than architecture, it cannot be understood as a wholly separated field of research and design, since the quality of one depends on the quality of the other.

Urban design - Wikipedia

Recent urban and economic development policies put much emphasis on the promotion of experiences. Within the experience economy, the production and consumption of products and places is transformed into "theater." ... Ultimately, eventification not only embraces an accelerating logic of ever more experience schemes and thus raises questions ...
